EXPERIENCE

Nov. 2018 – Present

ChowNow | iOS Engineer II, iOS Engineer III | Playa Vista, CA

- Developed the redesign of **Order Direct**, a white-labeled iOS ordering product distributed to 9k+ restaurant clients, from prototyping, testing, internal/production distribution, and iteration
- Implemented both product and performance analytics (*Crashalytics, Firebase, Amplitude*) to gain insight on purchase conversion while maintaining a 99.83% crash free session rate
- Implemented curbside ordering and ordering history/confirmation features for the **ChowNow** marketplace application

June 2017 – Nov. 2018

Toyota Connected North America | Associate iOS Developer | Plano, TX

- Developed main features for **HUI**, Toyota's car sharing initiative, including vehicle bookings, reservation quoting, invoicing, user onboarding and incident reporting
- Core developer for Toyota's internal mobile Network and UI frameworks for iOS applications
- Automated UI testing (*XCTest*), reducing manual test times to under 7 minutes per build
- Received semi-annual Scrum Master training, engaged in weekly refinements, retrospectives, sprint planning, estimations and daily stand-ups

May – July 2016

Powershift Group | iOS Development Intern | Austin, TX

- Developed and tested the user onboarding and account settings features for **The Dime Club**, an Austin based professional networking app

Sept. – Dec. 2015

UT Office of Sustainability | Software Development Intern | Austin, TX

- Incorporated responsive web and mobile design for the 2015 Green Tours project site

EDUCATION

The University of Texas at Austin | B.S. Electrical Engineering | May 2017

Specializing in Software Engineering and Design

TECHNICAL SKILLS

- Frameworks:**
- API Development (**Alamofire, Apollo**)
 - UI Layout (**SnapKit, IB**)
 - Analytics (**Firebase, Amplitude**)
 - General (**UIKit, RxSwift, Core Data**)
- Tools:** **Cocoapods, XCode, API Testing (Postico, Postman), Git (Sourcetree, CLI)**
- Languages:** **Swift, Bash, SQL, Data Formatting (JSON, XML)**
- Competencies:**
- Design Patterns (**MVC, MVVM/C, MVI**)
 - Testing (**Unit, UI, Integration**)
 - Network (**REST, GraphQL, JSON:API**)
 - Programmatic Layout
- Design & UX:** **Prototyping, User Experience Research, Funnel Analysis, Graphics/Icons (GIMP)**

PROJECTS

WelcomeKit | Swift (Lottie) | [GitHub Repo](#)

- Swift onboarding UI components for creating animated user experiences with Lottie
